Hickman Tonopah Curtain Install.jpg

Hello Matt,

I wanted to pass along an update on our Hickman Eggs discussion a couple weeks ago. During the call, we had discussed some additional controls that Hickman's was exploring for control of dust emissions from the hen houses at their Tonopah facility. The attached picture shows the final curtain being installed on the hen houses. It's early in the evaluation stages of the effectiveness of the control devices, but I'm excited to see the benefits of Hickman's efforts. Please let me know if you have any questions.

Sincerely,

Michael R. Orman, E.I.T.

Hi Mike,

This is the last photo of the PM-10 control measure device being installed on the last manure barn.

Please share this photo with all concerned, especially your P.O.C. at Region 9.

Thanks,

Emily
